OUR BUSINESS WAS BUILT WITH A SIMPLE PURPOSE. TO HELP OUR CUSTOMERS SUCCEED IN THEIR BUSINESSES BY LEVERAGING THE POWER OF POLYESTER.

OVER THE YEARS, WE HAVE DONE THIS BY BRINGING IN USEFUL DIFFERENCES IN THE WAY WE THINK AND WORK ACROSS GEOGRAPHIES, GLOBALLY.

EVEN AFTER CLOSE TO THREE DECADES, OUR PURPOSE HAS REMAINED THE SAME. TO BE THE CHAMPION FOR OUR CUSTOMERS.

DURING FY 2015-16, WE EXPANDED OUR PRODUCT PORTFOLIO BY INTRODUCING SPECIALTY PRODUCTS TO CATER TO A LARGE CROSS-SECTION OF REQUIREMENTS.

WE IMPROVED OUR OPERATIONAL PERFORMANCE WITH HIGHER CAPACITY UTILISATION AND COST RATIONALISATION.

We strengthened our marketing network to reach unexplored markets.

We provided need-based training to our people and organised engagements across departments and hierarchies.

Despite short-term challenges in a growth-hungry world, we are encouraged by the fact that the demand for polyester products is ever rising.

The reasons are interestingly diverse: increasing women's participation in workforce, leading to more disposable income; large young population in emerging economies like India with increasing awareness towards fitness (active wear); India's emergence as the global automobile manufacturing hub (mobiletech products); growing focus on children's education in Asia and Africa (uniform); awareness towards health and hygiene (hygiene products); stricter compliance

norms in the industrial landscape to ensure health and safety of workers (protective wear).

Changing social aspirations will catalyse our growth, going forward.

And in all that we try to achieve every day, we are increasing the value proposition for our customers.

A slice of polyester in your life

Joya Ahluwalia, New Delhi, India

Is a communications professional with a busy schedule throughout the week. She drives her own car, attending meeting with clients, making presentations, while at the same time addressing concerns at home. She is a multitasker and she prefers western wear, when she is not at home.

She prefers comfort in her attire and while driving. Therefore, she prefers global brands,

not just for her clothes; but even when she chooses her steering cover or car upholstery.

Interestingly, the materials that cater to her needs round-the-clock on a busy day are made from polyester.

We have created a range of traditional and value-added products to help our customers make better downstream products.

Matheus Silva, Sao Paolo, Brazil

Is a football fanatic and a fitness expert.

He has to maintain high performance levels all day long. Therefore, he is meticulous about his attire and footwear for getting the right comfort and health benefits.

The quality core material that ensures Silva gets what he needs is polyester.

At Indo Rama, we combine our technology and teamwork to create best-in-class value-added polyester variants, which find multifaceted use.

Chairman's Review

I believe that the forthcoming year holds promise of improvement. The Government's focus on slew of recent initiatives for Textile sector places your Company in a favourable position. 🗨️

Dear Shareholders,

The year 2015-16 saw the Indian economy charting a measured course towards objectives set out by the Government two years ago. While investment momentum is still muted in some sectors, the positives to have emerged are the incremental, important steps taken by the

Government in fiscal correction, inflation containment, subsidy reduction, efforts to reinvigorate tax administration and a thrust on increased investment in key sectors. Private sector and industrial capex, however remains subdued on account of paucity of fund in the private sector.

The global scenario offers less cause for cheers. The world economy encountered challenges at many levels last year. Which include significant volatility, Eurozone instability, and depression in crude and commodity prices, currency depreciation in emerging markets, and a lingering slowdown in China. India's GDP growth – 7.6% as compared to 7.2% in the previous year – and reduced fiscal deficit of 3.9% sends out encouraging signals for the future.

I believe that the forthcoming year holds promise of improvement. The Government's focus on slew of recent initiatives for Textile sector places your Company in a favourable position. Our growing specialty product basket with products like super high tenacity PSF (SHT fibre), Optical White (OPW), Optical Bright (OB), Dope Dyed Black (DDB) PSF fibre, Hollow conjugate siliconised PSF, Black and Full Dull POY/DTY, Trilobal bright POY, DTY & FDY, will help us capture new markets going forward.

The polyester industry saw lot of ups and downs during the financial year like, shortage of raw material, currency volatility, inventory losses due to unprecedented fall in the crude oil prices and consequent raw material and finished goods prices, among others.

Adverse civil and economic situation in the European region and Central Asia which is a big market for the India posed many challenges to Indian Polyester Industry. Locally, the levy of anti-dumping duty on Purified Terephthalic Acid (PTA) by the government, made raw material expensive and also the manufacturing cost. On the domestic front due to regular breakdowns in the plants producing PTA, has resulted in shortage of raw material and thereby lower capacity utilisation.

However, every cloud has silver lining, with the polyester prices bottoming out

and rupee stabilising, business sentiments and industry performance will improve signalling positive trends and sustainable growth for this industry.

Prices of manmade fibre have moved in tandem with cotton yarn prices in past. While cotton prices have been revised from ₹ 35,500 per candy in May 2016 to ₹ 37,500 per candy in June 2016 to ₹ 48,000 per candy in August 2016, the polyester prices have not seen the rise in tandem with the cotton prices during the same period. This escalation in cotton prices, has opened opportunities for manmade fibre producers. Due to pressure on margins, Spinners replace cotton with polyester for manufacturing cotton-blended yarn, as the manmade fibre is cheaper than cotton. This trend will help us in increase utilisation of our resources and better realisations.

There is huge potential to increase the export of MMF-based textiles. Policy initiatives must be implemented on fast track mode to encourage domestic manufacturers to expand MMF production, optimise their cost structure and export at competitive prices. We are hopeful that with the package of ₹ 6,000 crores to apparel industry and various initiatives for promoting exports and the textile policy announcement in next 1- 2 months will further help the industry.

The polyester industry saw a comparatively better year in 2015-16 with the domestic market showing an upward trend in terms of higher demand. Moreover, crude oil prices were low during the year. As a result, the prices of raw material, i.e. PTA and MEG have remained subdued. Moreover, our initiatives during the year, which include, higher capacity utilisation, cost reduction measures and impetus to high value-added speciality products, are expected to propel the Company on a growth trajectory from now onward.

During the year, we remained resilient to industry headwinds and enhanced future preparedness. Through competitive pricing and quality offerings. 

Despite the challenges we faced in 2015-16, we clocked annual turnover of ₹ 2,535.65 crore against ₹ 2,761.38 crore in 2014-15. Our sales volume in 2015-16 stood at 336,393 MT against 307,517 MT in 2014-15. Our net profit stood at ₹ 56.00 crore against net loss of ₹ 21.53 crores in 2014-15.

During the year, we remained resilient to industry headwinds and enhanced future preparedness. Through competitive pricing and quality offerings. We strengthened our marketing team to reach out to more customers directly and deliver customised products. We have replaced old in-efficient DTY machines with new higher capacity machines. We are investing in advanced equipment to modify and help to produce new varieties of value-added specialty products, to strengthen our margins.

We hope that the GST will become a reality in a few months. Consumer prices might not come down actually, the price of cotton used to be tax free will have higher price impact and manmade fibre taxes are already high at 18-20% will not have to bear fresh taxes, GST for textile is shield to cover market rates. GST will also help to bring down the logistics costs.

Although availability of resources and technology play a key role in our business,

people are the biggest drivers of change at Indo Rama. We have team of go-getters, who are committed to deliver value, no matter what the odds are? We are committed to investing in talent and fostering an environment of learning and collaborating. Our goal is to transform Indo Rama from a good company to a great company in the coming years.

Indo Rama recognises its obligations to society and to you, our shareholders. It is our sincere endeavour to continue to focus on our businesses, environment and community initiatives as a part of our sustainability strategy. I am confident that the macro business environment is improving gradually, and this is the time to consolidate our strengths and focus more on opportunities as they emerge on the horizon. We strongly believe, we have the ability to demonstrate and convey this to the world.

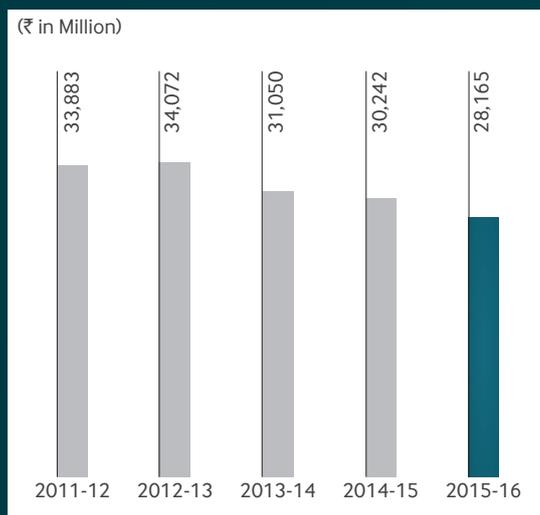

With optimistic vision, I am grateful to all our esteemed customers, business associates, management team, employees and shareholders for their encouragement and support.

O.P. Lohia

GROWING OUR RELEVANCE **EVERYDAY**

Our value-added products are aligned to changing customer requirements. To keep pace with rapid change, we invest significantly in product innovation.

Expanded Draw Texturised Yarn (DTY) capacity

We have expanded the capacity of Draw Texturised Yarn (DTY), which is a special value-added product. This will lead to higher capacity utilisation for Partially Oriented Yarn (POY), thereby improving the overall margins in the coming years. Our annual DTY production capacity has increased to 126,000 tonnes from the existing 92,750 tonnes.

This product is suitable for fibre-end uses like inner and outer garments, skin-tight garments, furnishings and upholstery, among others. It is used as a substitute for cotton and cotton blend yarns with significantly low moisture content.

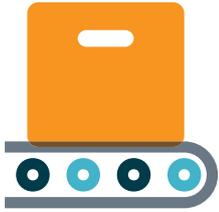

Introduced Air Textured Yarn (ATY)

The ATY resembles spun yarns in their appearance and offers an entirely different look and feel to any fabric. It can be used in a wide range of fabrics from simple lightweight scrim, heavy duty soft luggage fabrics to lightweight swim wear and heavy weight parkas. A blend of several filament yarns is needed to produce ideal ATY. Although low-denier ATY is quite expensive, high deniers are comparatively cost-efficient.

Offered several value-added products

- ▶ We expanded our product portfolio by introducing specialty products, which are expected to enhance our sales, consequently improving the overall margins.
- ▶ Under PSF specialty products, we introduced Optical White (OPW), Optical Bright (OB) and Dope Dyed Black (DDB). These are extensively used in textile products.
- ▶ We have developed super high tenacity fibre for industrial yarn applications.
- ▶ We introduced trilobal bright POY, FDY, Black POY, FD POY used in apparels, upholstery and home furnishing products.
- ▶ We introduced hollow conjugate fibre, which is soft, bulky and lightweight with high resilience. It is primarily used for padding (clothes and bedding) and stuffing (toy, pillow, cushion and other furniture).

TAKING OUR PRODUCTS **PLACES**

At Indo Rama, we have an extensive pan-India presence through our strategically located offices across textile belts. Besides, our reach to over 29 countries strengthens our global visibility. Now, we aim to penetrate deeper and foray into unexplored geographies.

Indian and global marketing strategy

- ▶ We maintained direct contact with customers to understand their specific requirements and offer them customised products.
- ▶ Our value-added product portfolio helped us increase our sales volume and strengthened our existence in new markets.

- ▶ We have increased the proportion of repeat business by ensuring maximum customer satisfaction.
- ▶ We have allocated key account managers to cater to customers with bespoke solutions.

- ▶ We focused on extending our customer base for new products across the globe.

9.23%

Our volumes increased by 9.23% during 2015-16 over the previous year.

UPPING THE EFFICIENCY QUOTIENT

Over the years, we have emerged as one of the most cost-competitive polyester manufacturers in India. We are constantly improving our operational efficiencies, ensuring raw material availability, optimising energy costs and minimising wastage.

Relying on indigenous sourcing

Purified Terephthalic Acid (PTA) is one of the most crucial raw materials for polyester manufacturing. We primarily used to import PTA, until a change occurred in FY 2015-16. We shifted to indigenous sources to procure raw materials, owing to an imposition of anti-dumping duty. Sourcing indigenously lowers our foreign exchange exposure.

Improving cost architecture

- ▶ We have appointed a consultancy to help us identify gaps where we can optimise costs, and take actions accordingly.
- ▶ We focused on alternative sourcing from local vendors for various items instead of Original Equipment Manufacturers (OEMs).

- ▶ We renegotiated with most of our vendors to bring down the overall operational cost.
- ▶ We conducted energy audits and undertook requisite measures to mitigate shortcomings. This enabled us to save around 2-3% of energy cost.
- ▶ We optimised the utilisation of coal and other fuels to ensure cost efficiency.
- ▶ We are creating 'value for waste', by better utilisation of fly ash (power plant waste).
- ▶ We further rationalised the packaging costs of various finished products.

Implementing logistics management

- ▶ We improved On Time In Full (OTIF) owing to better inventory control and planning.
- ▶ We deployed large customised trucks and ensured optimum loadability, resulting in cost savings and better efficiency.
- ▶ We introduced multi-model transportation methodology and judiciously used rail as well as road to rationalise cost.

BEING A RESPONSIBLE NEIGHBOUR

We work in the realms of health, education, energy and water conservation and the environment as a part of our social responsibility initiatives. We will continue to invest in such initiatives, going forward.

Proactive steps towards healthcare

We make sure that the communities around our operating areas don't face any difficulty in availing of proper healthcare facilities. We operate Vyasanki Kendra in villages to address health issues. Throughout the year, we organised a host of healthcare initiatives, including:

- ▶ We conducted a voluntary blood donation camp at Site Health Centre, in association with Jeeva Jyoti Blood Bank, Nagpur.
- ▶ We organised a free diagnostic and treatment camp in association with Wockhardt Hospital, Nagpur.
- ▶ We arranged another free diagnostic and treatment camp at the Site Health Centre, in association with Asha Hospital, Nagpur. Doctors from the hospital conducted eye check-up, blood sugar examination and ECG.
- ▶ On the occasion of World AIDS Day, we showed documentaries to truckers on this particular disease and conducted a lecture primarily focusing on preventive measures.
- ▶ We organised a lecture programme on hypertension, which was conducted by Dr. Nitin Bhalerao at the health centre.
- ▶ We also arranged a lecture programme on the prevention of heart attack, conducted by renowned cardiologist Dr. Mahesh Fulwani.
- ▶ We organised eye check-up camps at both the colonies, conducted by Dr. Rathi of RNH Hospital, Nagpur.
- ▶ We arranged an educational programme on dengue at both the colonies.
- ▶ We organised a cardiac check-up camp at the Health Centre, in association with Platina Hospital, Nagpur. Blood pressure, sugar, ECG and various other cardiac check-ups were done in the camp. Dr. Pramod Mundra conducted a lecture on cardiac disease, called Suno Dil Se Dil Ki Baat.
- ▶ We organised an awareness programme on tobacco and its side effects in the colony.
- ▶ Spoken English classes for the children of our employees.
- ▶ Workshops on self-employment (making *agarbatti*, chalk and *papad*, among others).
- ▶ Internship programmes for local engineering and MBA students.
- ▶ Industry-oriented training programmes.

Education makes a difference

We encourage young students around our vicinity, as well as the children of our employees to continue their education. During the year, a computer literacy programme was organised at Kavi Meera Sut Blind School. We participated in the opening ceremony and donated five computers to them. Besides, we organise:

Energy and water conservation

- ▶ We focus on the '5R Concept': Reduction at source; Reuse; Recycling; Recovery; and Rethinking alternative and improved solutions.
- ▶ We treat and recycle effluents from the production process to achieve 'zero discharge pollution'.
- ▶ We conduct water conservation awareness programmes through local industry associations, targeting neighbouring communities.

Green initiatives

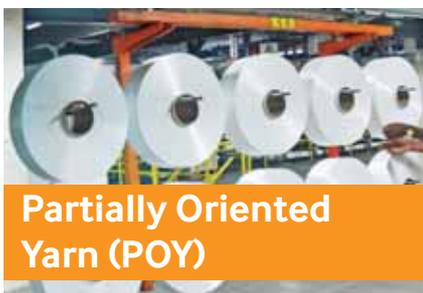

As a responsible organisation, we comply with environmental standards and maintain ecological balance through our operations. We plant trees around our vicinity to contribute towards environmental wellbeing.

In 2015, global economic activity remained subdued. Global growth is estimated at 3.4% in 2016 from 3.1% in 2015. The pick-up in global growth is fragile and uneven across economies, with risks slanted towards developing economies and emerging markets. Global geo-political tensions, economic upheaval in Europe, low commodity prices and a potential slowdown in China will continue to challenge growth prospects in the coming fiscal.

India remained one of the best performing economies, with its GDP touching 7.6% in 2015-16 from 7.2% in 2014-15. Indian economy Inflation, fiscal deficit and current account balance have exhibited distinct signs of improvement. Continuing fiscal consolidation has reduced the Government of India's fiscal deficit to close to 4% of GDP (on a 12-month rolling basis), down from a peak of 7.6% in 2009.

Indian economy exhibited significant resilience in maintaining growth during a time of subsiding global demand, falling commodity prices and weakening growth in emerging economies. India strengthened its economic fundamentals on the back of robust government reforms, favourable commodity prices and an encouraging macroeconomic environment.

The government's 'Make in India' programme has attracted investment commitment of around USD 400 billion. The nation expects to add nearly 100 million new manufacturing jobs and increase the manufacturing share to 25% by 2022 from about 18% in 2014.

At present, the aggregate textile and apparel exports is valued at US\$ 40 billion and is expected to show a year-on-year growth. Manmade fibre and polyester fibre will be the major contributors to this growth.

Fibre industry scenario

Global fibre industry

Global cotton and manmade fibre production is expected to be 88.5 million tonnes in 2015, compared to 89 million tonnes, registering 0.6% decline. Manmade fibres accounted for 66.8 million tonnes, a growth of 6% over 2014 whereas cotton production declined by 16.6% from 26.0 million tonnes to 21.7 million tonnes. The manmade fibre production accounts for 75% share. The global production of polyester fibre is nearing an estimated 49 million tonnes with 9% growth over 2014.

Indian fibre industry

The estimated fibre production in 2015-16 is 10.40 million tonnes, down by 5.3% from 11.0 million tonnes last year. The cotton fibre production is estimated at 6.0 million tonnes in 2015-16, compared to 6.63 million tonnes in 2014-15, registering 9.5% decline.

Indian polyester industry

The polyester fibre demand remained stable at 3.6 million tonnes in 2015-16. The subdued market sentiments, weakening consumer demand and higher imports of manmade yarns and fabrics affected Indian domestic polyester industry. The polyester fibre capacity utilisation is seen at 65%.

Polyester fibre is estimated to grow at 5-6% during 2016-2018 owing to growing application of technical textiles, higher disposable income and rising demand of polyester in fashion fabrics. The competitive prices of polyester fibre will contribute to an increase in polyester fibre's market share.

Raw material dynamics

Purified Terephthalic Acid (PTA) and Mono Ethylene Glycol (MEG) are the primary raw materials for the polyester industry. As these are derivatives of the petrochemicals industry, any change in crude oil price affects their prices.

During 2015-16, the price of crude oil remained highly volatile and varied between a high of US\$ 65 per barrel to a low of US\$ 31 per barrel. This led to instability in the prices of Paraxylene (PX), PTA, as well as MEG. The price of PX varied between US\$ 951 pmt to US\$ 718 pmt.

Purified Terephthalic Acid (PTA)

The PTA prices varied between US\$ 741 pmt to US\$ 551 pmt. PTA remained oversupplied in the world market due to addition of

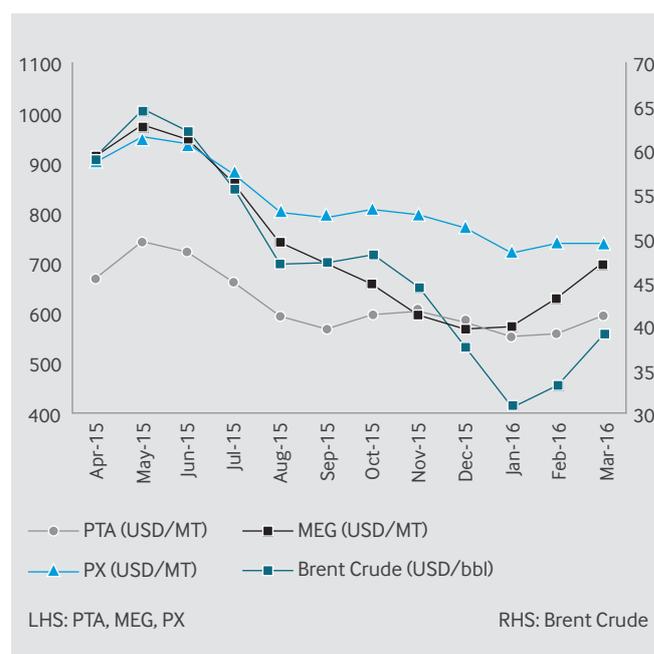

capacities in China in excess of growth in demand. Besides, there was also capacity expansion in India. Overcapacity resulted in pressure on prices, and the average PTA-PX delta for 2015-16 was about US\$ 75 pmt. This forced many PTA manufacturers to either shut down operations or reduce operating rates.

In India, PTA supplies became adequate to surplus during the year's first half. In December 2015, the government imposed anti-dumping duty on almost all PTA supplying countries including china. Hence, import reduce significantly, and were viable only for export against advance license. Technical hazards and plant shutdown of PTA manufacturing companies adversely affected PTA supply. However, presently the Indian market is balanced.

Mono Ethylene Glycol (MEG)

The MEG prices varied between US\$974 pmt to US\$ 568 pmt. MEG supplies remained normal till December 2015 owing to steady imports coming into India due to force measures/technical issues, MEG manufacturing companies curtailed production affecting MEG supply into India. However it became normal in March'16, after a new plant was commissioned in Iran and material from the facility started coming to India. MEG availability is expected to ease further after commissioning of 750 KT MEG plant during Q3 of 2015-16, in India.

Power business

Indo Rama's captive power source enables continuous power supply for uninterrupted production. After the 10 MW STG addition, the Captive Power Plant (CPP) capacity has increased to 40 MW with coal-based thermal power generation; 31.08 MW FO-based DG sets are used to meet emergencies as well as to cater to additional power demand during peak hours when the grid power is costlier than DG power. The Company has imported cheaper power on available opportunities and during off peak hours. The Company's combined power generation capabilities are integrated into a common power supply pool, from which the required amount of power is fed for captive power consumption. The CPP also meets steam demand of the process through extraction from turbines.

The Company continues to reduce the overall cost of the power of polyester production and subsequently, contributes to the core business profitability. The utilisation of higher gross calorific value (GCV) coal, as well as transporting the same over rail has reduced overall fuel costs. The CPP also sells the surplus power in the energy exchange, when the prices are favourable.

Independent Auditors' Report

To the Members of
Indo Rama Synthetics (India) Limited

1. Report on the Standalone Financial Statements

We have audited the accompanying financial statements ("standalone financial statements") of Indo Rama Synthetics (India) Limited ("the Company"), which comprise the Balance Sheet as at 31 March 2016, the Statement of Profit and Loss, the Cash Flow Statement for the year then ended, and a summary of significant accounting policies and other explanatory information.

2. Management's Responsibility for the Standalone Financial Statements

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Accounting Standards specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

3. Auditors' Responsibility

Our responsibility is to express an opinion on these standalone financial statements based on our audit. We have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made thereunder.

We conducted our audit in accordance with the Standards on Auditing specified under Section 143(10) of the Act. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Company's preparation of the financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Company's Directors, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our qualified audit opinion on the standalone financial statements.

Attention is drawn to note 39 (b) of the standalone financial statements, which enumerates recognition of interest of ₹ 10.95 crores for the year ended 31 March 2016 on the insurance claim lodged by the Company with its insurance company for the loss of certain assets and loss suffered due to business interruption at its plant in 2007-08. The said recognition of asset, is not in accordance with accounting principle stated in Accounting Standard 29, 'Provisions, Contingent Liabilities and Contingent Assets'. Had such income not been recognised, the net loss before tax for the year would have been higher by ₹ 10.95 crores, the net profit after tax for the year would have been lower by ₹ 7.16 crores and Reserves and Surplus as at 31 March 2016 would have been lower by ₹ 7.16 crores.

5. Qualified Opinion

6. Emphasis of matter

Annexure II referred to in paragraph 7 (ii)(h) of the Independent Auditors' Report to the Members of Indo Rama Synthetics (India) Limited

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of **Indo Rama Synthetics (India) Limited** ("the Company") as of 31 March 2016 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on 'Audit of Internal Financial Controls Over Financial Reporting' issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on 'Audit of Internal Financial Controls Over Financial Reporting' (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls and both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31 March 2016, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on 'Audit of Internal Financial Controls Over Financial Reporting' issued by the Institute of Chartered Accountants of India.

The Company is also engaged in power generation, which is used primarily for captive consumption. The Company's manufacturing facilities are located at Butibori, Nagpur.

2. Significant Accounting Policies

2.1 Basis of preparation

These financial statements have been prepared under the historical cost convention, modified to include revaluation of certain fixed assets, on a going concern basis, on the accrual basis of accounting in accordance with the Generally Accepted Accounting Principles (GAAP) in India. Indian GAAP primarily comprises mandatory accounting standards as specified under the section 133 of the Companies Act, 2013, read with Rule 7 of Companies (Accounts) Rules, 2014, and other accounting pronouncements of the Institute of Chartered Accountants of India.

2.2 Use of estimates

The preparation of financial statements in conformity with generally accepted accounting principles (GAAP) in India requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent liabilities on the date of the financial statements and the results of operations during the year. Differences between actual results and estimates are recognized in the year in which the results are known or materialized. Examples of such estimates are estimated useful life of assets, classification of assets/liabilities as current or non-current in certain circumstances, recoverability of minimum alternate tax credit entitlement, provision for doubtful receivables and retirement benefits, etc. Actual results could differ from those estimates. Any revision to accounting estimates is recognized prospectively in current and future periods.

2.3 Current/ non-current classification

All assets and liabilities are classified as current and non-current.

Furniture and fixtures	15 years
Vehicles	10 years

- ▶ Fixed assets individually costing up to rupees five thousand are depreciated at the rate of 100% over a period of one year.
- ▶ Software are amortised on straight line method over a period of three years.

2.6 Impairment

The carrying amounts of the Company's assets are reviewed at each balance sheet date to determine whether there is any indication of impairment. If any such indication exists, the assets' recoverable amount is estimated as higher of its net selling price and value in use. An impairment loss is recognized whenever the carrying amount of an asset exceeds its recoverable amount. Impairment losses are recognized in the Statement of Profit and Loss.

For the purpose of impairment testing, assets are grouped together into the smallest group of assets (Cash Generating Unit or CGU) that generates cash inflows from continuing use that are largely independent of the cash inflows of other assets or CGUs.

An impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount. An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined net of depreciation or amortization, had no impairment loss been recognized.

2.7 Borrowing costs

Borrowing costs that are attributable to the acquisition or

construction of qualifying assets are capitalized as part of the cost of such assets to the extent that they relate to the period till such assets are ready to be put to use. To designate a forward contract or option as an effective hedge, management objectively evaluates with appropriate supporting documents at the inception of each contract whether the contract is effective in achieving offsetting cash flows attributable to the hedged risk. For the purpose of calculating diluted earnings per share, the net profit or loss for the year attributable to equity shareholders and the weighted average number of shares outstanding during the year are adjusted for the effects of all dilutive potential equity shares.

2.17 Provisions and contingent liabilities

The Company recognizes a provision when there is a present obligation as a result of a past event and it is more likely than not that there will be an outflow of resources embodying economic benefits to settle such obligations and the amount of such obligation can be reliably estimated. Provisions are not discounted to their present value and are determined based on the management's estimation of the outflow required to settle the obligation at the balance sheet date. These are reviewed at each balance sheet date and adjusted to reflect current management estimates.

Contingent liabilities are disclosed in respect of possible obligations that have arisen from past events and the existence of which will be confirmed only by the occurrence or non-occurrence of future events, not wholly within the control of the Company.

When there is an obligation in respect of which the likelihood of outflow of resources is remote, no provision or disclosure is made.

to the Financial Statements for the year ended 31 March 2016

(All amounts in ₹ crores, unless otherwise stated)

- (b) During the year ended 31 March 2016, the Company has recognised interest of ₹ 10.95 crore on award decided by the arbitral tribunal, for the loss of certain assets and loss suffered due to business interruption under loss of profit policy relating to fire incidence at its plant in 2007-08 under 'other operating income'.
- (c) Consequent to an incident of fire during the year 2011-12, the Company had spent ₹ 7.58 crores on refurbishment of the concerned plant and machinery, which had been recognized as a receivable from the insurance company under other

current assets. During the current year, the claim was rejected by insurer on grounds of insufficient premium paid. The Company has filed the writ petition on 6 May 2016 against the insurance company.

Further, the Company strongly believes and is reasonably certain that the above cases do not have any significant impact on the financial position of the Company and it will be able to realize the above amounts in the normal course and, therefore, all the claims have been classified as current.

In the absence of virtual certainty and as a matter of prudence the Company has charged off MAT Credit entitlement amounting to ₹ 57.30 crores during the year.

Note 42: The Company had made an early application, since the year 2010-11, of Accounting Standard 30 "Financial Instruments- Recognition and Measurement", issued by the Institute of Chartered Accountants of India for accounting for forward exchange contracts taken for highly probable / forecast transactions, which are not covered by Accounting Standard 11. The loss incurred has been primarily due to the timing difference in the prices at which material has been purchased and sold.

Independent Auditors' Report

To the Members of

1. Report on the Consolidated Financial Statements

We have audited the accompanying consolidated financial statements of Indo Rama Synthetics (India) Limited ('the Holding Company') and its subsidiaries (the Holding Company and its subsidiaries together referred to as 'the Group'), comprising of the consolidated Balance Sheet as at 31 March 2016, the consolidated Statement of Profit and Loss, the consolidated Cash Flow Statement for the year then ended, and a summary of the significant accounting policies and other explanatory information ("the consolidated financial statements").

2. Management's Responsibility for the Consolidated Financial Statements

The Holding Company's Board of Directors is responsible for the preparation of these consolidated financial statements in terms of the requirements of the Companies Act, 2013 ('the Act') that give a true and fair view of the consolidated financial position, consolidated financial performance and consolidated cash flows of the Group in accordance with the accounting principles generally accepted in India, including the Accounting Standards specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014. The respective Board of Directors of the entities included in the Group are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Group and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the consolidated financial statements by the Directors of the Holding Company, as aforesaid.

3. Auditors' Responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audit. While conducting the audit, we have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made thereunder.

We conducted our audit in accordance with the Standards on Auditing specified under Section 143(10) of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Holding Company's preparation of the consolidated financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Holding Company's Board of Directors, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our qualified audit opinion on the consolidated financial statements.

The said recognition of asset, is not in accordance with accounting principle stated in Accounting Standard 29, 'Provisions, Contingent Liabilities and Contingent Assets'. Had such income not been recognised, the net loss before tax for the year would have been higher by ₹ 10.95 crores, the net profit after tax for the year would have been lower by ₹ 7.16 crores and Reserves and Surplus as at 31 March 2016 would have been lower by ₹ 7.16 crores.

accounting principles generally accepted in India, of the consolidated state of affairs of the Group as at 31 March 2016, their consolidated profit and their consolidated cash flows for the year ended on that date.

6. Emphasis of matter

We draw attention to note 39 (a) of the consolidated financial statements which describes the uncertainty related to the outcome of the lawsuit filed by the Holding Company against an insurance company. Our opinion is not modified in respect of this matter.

7. Report on other legal and regulatory requirements

(i) As required by section 143(3) of the Act, we report, to the extent applicable, that:

Annexure I to the Independent Auditors' Report to the Members of Indo Rama Synthetics (India) Limited on the consolidated financial statements

Report on the Internal Financial Controls under Clause (i) of Sub-section (3) of Section 143 of the Companies Act, 2013 ("the Act")

In conjunction with our audit of the consolidated financial statements of the Group as of and for the year ended 31 March 2016, we have audited the internal financial controls over financial reporting of the Holding Company and its subsidiary companies, which are companies incorporated in India, as of that date.

Management's Responsibility for Internal Financial Controls

The respective Board of Directors of the Holding company and its subsidiary companies, which are companies incorporated in India, are responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on 'Audit of Internal Financial Controls Over Financial Reporting' issued by the Institute of Chartered Accountants of India (ICAI). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the respective company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on 'Audit of Internal Financial Controls Over Financial Reporting' (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143 (10) of the Act, to the

extent applicable to an audit of internal financial controls, and both issued by the ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial

control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial

reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Holding Company and its subsidiary Companies which are companies incorporated in India have, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2016, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on 'Audit of Internal Financial Controls Over Financial Reporting' issued by the ICAI.

Note 39: Insurance claim receivables:

(a) The Holding Company had lodged claims with its insurance company for the loss of certain assets and loss suffered due to business interruption under loss of profit policy relating to a fire incidence at Butibori plant in 2007-08. Since, the matter has been under dispute with the insurance company, as per the terms and conditions of the above policy, the Holding Company has, during the previous years, initiated the arbitration process for a claim of ₹ 72.94 crores for loss of business interruption and for the claim of ₹ 6.43 crores for loss of assets. While the said matter was pending conclusion by the Arbitral Tribunal, the Holding Company, on a conservative basis, carried forward insurance recoverable (recorded in the financial year ended 31 March 2008) to the extent of ₹ 33.53 crores (net of receipt/adjustment) as advances recoverable, without prejudice to its right to claims aggregating ₹ 79.37 crores. On 1 August 2012, the Arbitral Tribunal decided the matter in the favour of the Holding Company with an award of ₹ 32.45 crores (net off receipt/adjustment) and interest at 9% per annum from July 2008 till the date of payment. Pursuant to the above award, the Holding Company had during the year 2012-13 recorded the interest receivable amounting to ₹ 11.69 crores upto July 2012 (the date of order) and aligned the carrying amount of insurance claim. The Insurance Company had filed an appeal in the Delhi High Court against the same. On 20 January 2015, the Delhi High Court Single bench pronounced the order wherein the Court has remanded the matter back to Arbitral Tribunal for computation of claim

on "turnover basis". Subsequently, the Holding Company had filed an appeal with the Delhi High Court double bench and an interim stay has been awarded pending disposal. Currently, the case is pending with Delhi High Court.

- (b) During the year ended 31 March 2016, the Holding Company has recognized interest income of ₹ 10.95 crore on award decided by the arbitral tribunal, for the loss of certain assets and loss suffered due to business interruption under loss of profit policy relating to fire incidence at its plant in 2007-08 under 'other operating income'.
- (c) Consequent to an incident of fire during the year 2011-12, the Holding Company had spent ₹ 7.58 crores on refurbishment of the concerned plant and machinery, which had been recognized as a receivable from the insurance company under other current assets. During the current year, the claim was rejected by insurer on grounds of insufficient premium paid. The Company has filed the writ petition on 6 May 2016 against the insurance company.

Further, the Holding Company strongly believes and is reasonably certain that the above cases do not have any significant impact on the financial position of the Holding Company and it will be able to realize the above amounts in the normal course and, therefore, all the claims have been classified as current.

Loss before Tax stood at ₹ 59.66 Crores against ₹ 34.02 Crores for the previous year. There is net profit of ₹ 56.00 Crores as against a net loss of ₹ 21.53 Crores last year.

Despite this, the Company may still be deemed to have inadequacy of profits under Section 197 of the Companies Act, 2013, largely on account of external and unexpected circumstances beyond the control of the Management, viz.; global and general economic meltdown; Recession in the Polyester Industry, sharp volatility in the prices of textile products putting pressure on both the top line as well as bottom line and resulting lesser profits.

In the financial year ended 31st March 2016, the Company has shown positive results through focused initiatives aimed at improving marketing and customer value that resulted into higher sales volumes and improved margins. Operational efficiencies, cost optimization and prudent financial management practices resulting into lower interest cost were the factors that contributed to turnaround in profits. The Company today is amongst the world's most efficient polyester producers.

With the overall economic and business environment showing encouraging signs of improvement in the Polyester industry, the Company is poised for growth. The Directors are confident of a continuing all round improvement in Company's performance in the coming years.

2. Steps taken or proposed to be taken for improvement:

With the help of concerted efforts made by the Management during the financial year 2015-16, the performance and profitability of the Company has taken a positive turn after passing through a difficult phase due to impact of global meltdown and currency fluctuation. As per the audited financial results as considered in the Board of Directors' Meeting held on 18th May 2016, the Company has recorded gross sale of ₹ 2,714.69 Crores and net sale of ₹ 2,464.75 Crores. There is an increase in the quantity sold by 9.39% as compared to the previous year which is considered satisfactory considering the effect of the economic downturn. Earnings before Depreciation, Interest & Taxation (EBIDTA) is at ₹ 124.29 Crores as against ₹ 132.25 Crores last year. Loss before Tax stood at ₹ 59.66 Crores against ₹ 34.02 Crores for the previous year. There is net profit of ₹ 56.00 Crores as against a net loss ₹ 21.53 Crores last year.

The turnaround in profits from operations on account of higher volumes cost competitiveness and reduction in interest cost. The economic scenario is also continuously improving and the Company expects much better performance in the current financial year as well as in times to come.

Considering the continuously improving economic scenario and on the basis of last year's performance, Company expects improvement in its net sales and profits.
