

Job cuts in textile industry continue

The textile industry has sought government intervention to stop job losses in the sector. "About 7-10 per cent people have already lost their jobs in the sector in the last two years, and this is continuing. If the government does not intervene immediately, more and more people may lose their jobs," Apparel Export Promotion Council Chairman A Sakthivel said on Tuesday. He added domestic banks were not cooperating and this was acting against the sector.
